

From Eye to Insight

## LEICA SPATIAL BIOLOGY IMAGING & ANALYSIS SEMINAR

Join our seminar to discover emerging technologies and workflows that leverage **fluorescence multiplexing**, **AI**, **laser microdissection** and much more, to give greater spatial context to your tissue and cancer research.

### **SpectraPlex for STELLARIS<sup>NEW!</sup>**

» Access 3D high-multiplexing across scales in one go

### **Cell DIVE Multiplex Imaging Solution**

» Automated open multiplexing

### **Aivia AI Image Analysis Software<sup>NEW!</sup>**

» Deeper spatial insights powered by AI

### **LMD6 & LMD7 Laser Microdissection**

» We move the laser, not the sample
